Pune, India · Open to relocation to the Netherlands / EU · Available from Aug 2026

SUMMARY

Senior product designer and founder — 9 years building products and the systems behind them, from 0-to-1 startup work to enterprise scale across EdTech, HealthTech, and Enterprise SaaS. I own the full lifecycle: research, strategy, design systems, and AI-assisted shipping. Most recently I solo-built Aulys, an AI accessibility product (Figma plugin + web app, 30+ beta users) — end-to-end, from problem to live product. I build the infrastructure that makes the next ten screens faster, and I use AI tooling to move from idea to shipped faster than a traditional design cycle.

EXPERIENCE

Infosys · Senior Product Designer

Aug 2024 – Present

Pune, India

- Shipped a 5-tool AI Teacher Assistant Suite from 0-to-1 — Rubric Generator, Recommendation Engine, Math Practice, Email Drafter, and PD Chatbot — reaching **10,000+ teachers and 50,000+ students**, lifting learning effectiveness by 40%.
- Improved AI rubric acceptance from **41% to 74%** through iterative research and interaction redesign.
- Architected and governed a 60+ component design system across 5 cross-functional teams — zero component forks, one source of truth.
- Led 75+ educator discovery sessions; translated findings into a prioritised roadmap that **cut teacher assessment time by 70%**.
- Reduced stakeholder review cycles from 3 weeks to 5 days via co-design sprints and an async feedback system adopted across the org.

Simplifai Cognitive Services · Product Designer

Oct 2022 – Jul 2024

Pune, India

- Led design direction for the AI no-code Flow Builder — drove a **73% increase in user adoption** through progressive-disclosure onboarding that cut drop-off 28% across 950+ users and 12+ enterprise clients.
- Founded Simplifai's design practice as the first designer — established the first design system, research cadence, and dev-handoff process, delivering **42% faster dev cycles** and reducing handoff friction 60%.
- Defined interaction models for complex automation workflows; aligned product, engineering, and stakeholders on a fast-moving roadmap.

Keywordio · UI/UX & Motion Designer

Jan 2020 – Sep 2022

Pune, India

- Led a team of 5 designers — owned hiring, mentoring, and design quality across the product portfolio.
- Redesigned 3 core CRM dashboards through research with 100+ users — restructured IA and interaction design, cutting data-access time 12% and driving a 45% jump in team adoption.
- Elevated product experience through motion design and visual storytelling, contributing to a 30% increase in user engagement.

Earlier · Visual & Motion Design

2017 – 2020

Green Earth Translogistics (Shell Petroleum campaigns) and Windows Film Production — built core craft in composition, hierarchy, and visual storytelling that underpins today's product work.

FEATURED PROJECT

Aulys — AI Accessibility Product (Founder)

adityachinchakar.com/work/aulys

Solo-built a Figma plugin + web SaaS that scans full frames (500+ layers in under 10 seconds) for WCAG 2.2 issues and generates AI-reasoned fixes plus downloadable VPAT reports — not just detection. 30+ beta designers actively testing. Owned the entire lifecycle: strategy, research, design system, AI-assisted build, and go-to-market. Lands directly into Europe's accessibility moment — the EU Accessibility Act became enforceable in 2025 — but the real story is end-to-end product ownership and AI-augmented execution at founder speed.

Built with React 19, TypeScript, Next.js 14, and the Figma Plugin API (AI-assisted).

RECOGNITION

- Certificate of Recognition · Imagine Learning / Infosys (Jason Fournier, SVP) · 2025
- 8 solo presales proof-of-concept deliveries · Infosys / Imagine Learning · 2024–2025

SKILLS & TOOLS

LEADERSHIP Design Leadership · Team Management · Stakeholder Management · Cross-functional Alignment · Design Operations
